

VisuAlert™ Visual LED Warning

Omni-directional Visual Lighting Option for 2900 & OA Series

Mass Notification Warning Product

Enhance your Whelen Voice and Siren Mass Notification System with a visual component, VisuAlert!

With over half a century of emergency lighting experience and expertise, only Whelen Engineering could design a product with this performance and reliability.

Features

- VisuAlert Super-LED® mounts under a WPS2900 or Omni-Alert system
- Complete 360° highly effective LED warning.
- VisuAlert illuminates with a designed flash pattern when siren is activated.
- Cluster of six LED Whelen M6 Series warning lightheads, 24 VDC.
- Available in red, blue, white (clear) or amber.
- All connections are waterproof.
- All wiring encased in protective sheathing, anchored to brackets to protect from damage.
- Light source control module fully encapsulated and weatherproof.
- Light source control module provides flash pattern selection and light synchronization.
- Light source module covered by Whelen's two year warranty.
- Bracket supports are 300 Series stainless steel.
- VisuAlert can be adapted to older ESC2020-controlled Sirens.
- 1.2 amps per light source @ 24VDC.
- 2.5 amps total current draw when VisuAlert is operating.
- Light source is greater than 6000 peak candela.
- M6 Series lighthead dimensions 4-5/16" (109mm) H x 6-3/4" (170mm) W x 1-3/8" (35mm) D.

Model

VALERT*: VisuAlert option for WPS2900 Series and OA Series Mass Notification Systems

* Denotes color Code: **A**-Amber, **B**-Blue, **C**-Clear (white), **R**-Red.

VisuAlert on a five cell with optional solar power.
